## 21<sup>st</sup> Annual Watershed Celebration Silent Auction Request

The Clackamas River Basin Council invites you to promote your business to a local audience at the 21<sup>st</sup> Annual Clackamas Watershed Celebration on August 17, 2023. This year, we are celebrating the Clackamas as a ***River for All*** while highlighting key restoration success. In the past year, we completed the Sieben-Riverbend Side Channel Reconnection Project at the Sieben Creek/Clackamas River confluence, providing habitat for threatened and endangered fish native species (top image shows construction).

### **In addition to providing critical habitat, we also accomplished the following restoration and outreach benchmarks in 2022:**

- Planted over 15,500 native trees and shrubs and restored nearly a mile of stream habitat.
- Coordinated over 703 hours of volunteer restoration work
- Cleaned a 22-mile stretch of the Clackamas River and removed over 1,000 lbs of trash
- Treated 277 acres of invasive plant species at 27 sites.

As a local business, you know the importance of our Clackamas River, a mighty and beautiful river delivering stunning views, ample resources, and a wonderful place to live, work and play. You may also know that various human-caused pressures are impacting river health, water quality, and wildlife habitats. The Clackamas River Basin Council works diligently to improve these conditions.

**But we can't do this work without great partners like you.** People now more than ever are championing a cleaner, safer, and healthier river. Your support will help us enhance and protect the Clackamas River and its value as a resource for fishing, wildlife habitat, recreation, and drinking water for more than 300,000 Oregonians.

Thank you for your support,

Board of Directors  
Clackamas River Basin Council
